ENGINEERING GEOLOGY

Contents Volume 52

Special Issue

Sinkholes and the Engineering and Environmental Impacts of Karst

B.F. Beck (Editor)

There is no such thing as *karstish* — an introduction
B.F. Beck, P.E. LaMoreaux 1

Source-identification investigations of petroleum contaminated groundwater in the Missouri Ozarks
J.B. Fels 3

Cover-collapse sinkholes in the "Tournaisis" area, southern Belgium
O. Kaufmann, Y. Quinif 15

Mechanics of upward propagation of cover-collapse sinkholes
T.M. Tharp 23

Planning the replacement of the Beards Creek bridge
S.E. Walker, J.W. Matzat 35

Sinkholes in karst mining areas in China and some methods of prevention
L. Gongyu, Z. Wanfang 45

Highway stormwater runoff in karst areas — preliminary results of baseline monitoring and design of a treatment system for a sinkhole in Knoxville, Tennessee
J.B. Stephenson, W.F. Zhou, B.F. Beck, T.S. Green 51

Limestone ordinances of New Jersey and Pennsylvania: a practitioner's experiences
J.A. Fischer 61

Hazard mapping of karst along the coast of the Algarve, Portugal
R.A. Forth, D. Butcher, R. Senior 67

Designing foundations around sinkholes
R.C. Kannan 75

Control of naturally occurring brine springs and seeps in an evaporite karst setting
B.A. Memon, A.F. Patton, M.W. Pitts 83

Planning for gypsum geohazards in Lithuania and England
B. Paukštys, A.H. Cooper, J. Arustiene 93

Comparison of stormwater management in a karst terrane in Springfield, Missouri — case histories
W.L. Barner 105

Delineation of sinkhole boundary using Dutch cone soundings
K.-R. Chang, C. Basnett 113

A sampling plan for conduit-flow karst springs: minimizing sampling cost and maximizing statistical utility
J.C. Currens 121

Regional groundwater flow model construction and wellfield site selection in a karst area, Lake City, Florida
D.P. Dufresne, C.W. Drake 129

Studies and regulations in the Southwestern Illinois Karst
J. Bade, P. Moss 141

Evaluation of site characterization methods for sinkholes in Pennsylvania and New Jersey
B. Thomas, M.J.S. Roth 147

Special Issue

Nuclear Waste Management and the Earth Sciences

Ch. J. Talbot and M. Langer (Editors)

Introduction
Ch. J. Talbot and M. Langer 153

Part 1: Generic problems

Nuclear waste isolation: an urgent international responsibility
W.S. Fyfe 159

Subterranean microorganisms and radioactive waste disposal in Sweden
K. Pedersen 163

Ice ages and nuclear waste isolation
C.J. Talbot 177

The use of natural analogues to assess radionuclide transport
J.A T. Smellie and F. Karlsson 193

Geochemical assessement of actinide isolation in a German salt repository environment
J.I. Kim and B. Grambow 221

Part 2: Status reports

Mathematical modelling of groundwater flow at Sellafield, UK
C. McKeown, R.S. Haszeldine and G.D. Couples 231

Knowledge of the three French underground laboratory sites
P. Lebon and B. Mouroux 251

Principles of geomechanical safety assessment for radioactive waste disposal in salt structures
M. Langer 257

Rock salt — the mechanical properties of the host rock material for a radioactive waste repository
U. Hunsche and A. Hampel 271

Seismological hazard assessment for a site in Northern Germany, an area of low seismicity
G. Leydecker and J.R. Kopera 293

Geoscientific R&D for high level radioactive waste disposal in Sweden — current status and future plans
L.O. Ericsson 305

Geologic site characterization for deep nuclear waste disposal in fractured rock based on 3D data visualization
S.A. Tirén, P. Askling and S. Wänstedt 319

The Mont Terri rock laboratory, a new international research project in a Mesozoic shale formation, in Switzerland
M. Thury and P. Bossart 347
